## GraphAnalyze

Works with the LoggerPro and Graphical Analysis and Logging (GAL) software programs from Vernier. Analysis can be done using either GAL or .ga3 files. Convert .ga3 and .cml files to a spreadsheet for table and graph generation. Export the data tables and graphs as JPEG, PNG, PDF, or Excel format. Includes a converter to convert your .ca3 files to Vernier's Graphical Analysis and Logger Pro .ca3 data format. Print to file in the above formats. GraphAnalyze Features: Converter to convert .ga3 and .cml files to data tables and graphs Export the data tables and graphs in several formats Convert to CA3 format (incompatible with the .ca3 software from Vernier) Print .ga3 and .cml files as JPEG, PNG, PDF, or Excel Supports a spreadsheet to extract data from .ga3 and .cml files Add the filename to the output, and print to the PDF file. GraphAnalyze License: GraphAnalyze is free for non-commercial use. Commercial use requires a license. Contact us to request a license. Sections of the manual can be used for help if necessary. GraphAnalyze was written by Jeff MacLeod of MacLeod Software, Inc. For more information please visit us at: MacLeod Software is a division of Accolate Industries, Inc. Accolate is a distributor of Vernier Software Solutions. If you want to learn more about PC Tools please visit: or you can e-mail us at: info@pc-tools.com GraphAnalyze - Copyright (C) 2004 MacLeod Software, Inc. All rights reserved. Disclaimer The use of this application with the .ga3 and .cml files is intended to be used for personal, educational, research and development purposes only and the author and distributor assumes no responsibility for any damage, whether financial, health, or otherwise caused by this application.
